

DIANA BLAKE DESIGN  
**Architecture –  
the pursuit of excellence**

**DIANA BLAKE, ARCHITECTURAL DESIGNER, GIVES YOU HER INSIGHTS  
ON DESIGNING AND BUILDING YOUR DREAM HOME**

**BALANCING CREATIVITY AND PRACTICALITY**

Does the architect balance creativity and practicality?  
Does the architect's style resonate and are there references  
that can be provided or even previous projects that are  
viewable.

**EXCELLENT COMMUNICATION  
AND CO-ORDINATION**

These are essential, not just with synergy around ideas  
and the scope. But to clearly understand the stages  
involved in the process.

**DIANA BLAKE DESIGN IS AN INNOVATIVE AND EXCITING ARCHITECTURAL DESIGN OFFICE BASED IN A LOVELY RESORT TOWN OF WHANGAMATA**

**SUCCESSFUL PROJECTS FROM INCEPTION TO COMPLETION**

Achieving this is the result of getting the best architectural designer or architect for your project from the beginning. Careful research is required. Is the architect appropriate for the scale of the project? Have they received recognition for their work by known organization such as ADNZ or NZIA, media or through council? The right architect will add timeless value to your property and as such it makes sense to invest wisely in an architect with the most experience and affinity.

**WORD OF MOUTH IS IMPORTANT**

The importance of word of mouth in choosing your Architectural Designer or Architect. By talking to friends, colleagues, builders or the local Council you quickly hear their personal experiences and whether it was a positive experience or not.

**YOUR ARCHITECTURAL DESIGNER OR ARCHITECT.**

Go local as they have the knowledge and experience of designing in the area and dealing with the environmental conditions, local Councils & contractors etc.
